

Medicare Advantage and Managed Long-Term Care (MLTC) Plans

Healthfirst Medicare Advantage plans provide all the benefits and services that Original Medicare does, plus a whole lot more—for less. We offer a variety of plans to meet your needs, with benefits such as prescription drug coverage; over-the-counter allowance; dental, hearing, and vision benefits; the SilverSneakers® fitness program; 24/7 access to care via phone or video chat; and the option to go out of network for care. With Healthfirst Medicare Advantage plans, you can enjoy enhanced coverage and added convenience for your healthcare needs.

Healthfirst Long-Term Care plans provide health benefits that help you (or your loved one) remain at home and independent for as long as possible. We offer plans that combine hospital, medical, and prescription drug coverage with long-term care benefits, as well as a stand-alone managed long-term care plan option. With Healthfirst Long-Term Care plans, you'll have access to a care management team, which includes a primary care manager and other support staff who will help you develop your own personal care plan centered around your care goals and coordinate the services you need. Together, they will help you (or your loved one) with your day-to-day needs and coordinate care with you, your doctor, and your family.

Healthfirst offers a variety of plans designed to meet your unique needs. See below for plan details or [call us](#) for more information.
